

## Presentations

- [1] Kankanamge, D. G. J. and W. B. Moore 2016. Heat Transport in the Hadean Mantle: From Heat Pipes to Plates. Lunar and Planetary Science Conference 47, 1200.
- [2] DeMarines, J., M. N. Abedin, W. Moore, and A. T. Bradley 2015. From Clouds to Life Detection: The Past, Present, and Future of LIDAR. LPI Contributions 1838, 4015.
- [3] Edmonson, W., W. B. Moore, J. Bell, P. Wiwattananon, and R. Bryant, 2015. SSWARMS: Solar Storm Warning And Radiation Monitoring System, 4th Interplanetary CubeSat Workshop.
- [4] Wiwattananon, P., R. Bryant, W. Edmonson, W. B. Moore, and J. Bell, 2015. Deployment Technology of a Heliogyro Solar Sail for Long Duration Propulsion, 4th Interplanetary CubeSat Workshop.
- [5] Simon, J. I., W. B. Moore, and A. A. G. Webb 2015. The Case for a Heat-Pipe Phase of Planet Evolution on the Moon. Lunar and Planetary Science Conference 46, 1184.
- [6] Webb, A. G., W. B. Moore, and J. I. Simon 2014. The Heat-Pipe Hypothesis for Early Crustal Development of Terrestrial Planets. AGU Fall Meeting Abstracts 8.
- [7] Moore, W. B., J. I. Simon, and A. A. G. Webb 2014. Heat Pipe Planets. Lunar and Planetary Science Conference 45, 1951.
- [8] Padovan, S., J. Margot, S. A. Hauck, W. B. Moore, and S. C. Solomon 2013. Influence of the Interior Properties of Mercury on Its Tidal Response (Invited). AGU Fall Meeting Abstracts A2.
- [9] Edmonson, W., H. Herencia-Zapana, N. Neogi, W. Moore, and S. Ferguson 2012. Highly Confident Reduced Life-Cycle Design Process for Small Satellite Systems. Complex Systems Design & Management (CSDM).
- [10] Pothier, N. M., D. R. Weimer, and W. Moore 2011. Earth's Ground-Based Magnetic Perturbations in Response to Substorms. AGU Fall Meeting Abstracts 1983.
- [11] Moore, W. B. 2010. Low Hadean Heat Flow and Heat Transport by Melt Segregation in the Early Earth and Io. LPI Contributions 1538, 5598.
- [12] Schmidt, B. E. and W. B. Moore 2010. Giant Impacts Can Drive Asteroid Dynamics: Lessons for Vesta. Lunar and Planetary Science Conference 41, 2700.
- [13] Bills, B. G., W. B. Moore, M. A. Siegler, and D. A. Paige 2010. Lunar Obliquity During a Cassini-State Transition. Lunar and Planetary Science Conference 41, 1752.
- [14] Bargatze, L. F., W. B. Moore, and T. A. King 2009. Custom auroral electrojet indices calculated by using MANGO value-added services. AGU Fall Meeting Abstracts 1283.
- [15] Rivkin, A. S., and 27 colleagues 2009. The Case for Ceres: Report to the Planetary Science Decadal Survey Committee. AGU Fall Meeting Abstracts A8.
- [16] Bills, B. G., W. B. Moore, and M. A. Siegler 2009. Lunar obliquity during a Cassini-state transition. AGU Fall Meeting Abstracts 8.

- [17] Moore, W. B. and P. H. Warren 2009. Basin-Induced Stresses and KREEP Magma Transport in the Moon. AGU Fall Meeting Abstracts 2.
- [18] Blankenship, D. D., D. A. Young, W. B. Moore, and J. C. Moore 2009. Radar Sounding of Europa's Subsurface Properties and Processes: The View from Earth. European Planetary Science Congress 2009 636.
- [19] Schmidt, B. E., W. B. Moore, and C. T. Russell 2009. The Impact-induced Rotational and Shape Evolution of 4 Vesta. AAS/Division for Planetary Sciences Meeting Abstracts #41 41, #58.04.
- [20] Moore, W., R. F. Ferrante, R. L. Hudson, M. H. Moore, R. E. Samuelson, and C. Anderson 2009. Spectra and Optical Constants of Nitrile Ices Relevant to Titan. AAS/Division for Planetary Sciences Meeting Abstracts #41 41, #17.05.
- [21] Moore, W. B. 2008. Coupled Atmosphere-Hydrosphere-Mantle Evolution: Exploring Mantle Feedbacks. AGU Fall Meeting Abstracts 74.
- [22] Moore, W., R. F. Ferrante, R. L. Hudson, M. H. Moore, R. E. Samuelson, and R. K. Khanna 2008. Optical Constants of Titan Candidate Ices Relevant to Cassini Data: A New Laboratory Set-Up. Bulletin of the American Astronomical Society 40, 450.
- [23] Newman, W. I., W. B. Moore, and B. G. Bills 2008. Rotational Dynamics: A Geometrical Approach. AAS/Division of Dynamical Astronomy Meeting #39 39, #15.18.
- [24] Blankenship, D. D., W. B. Moore, D. A. Young, and M. E. Peters 2007. Radar Imaging of Europa's Subsurface Properties and Processes: The View from Earth. AGU Fall Meeting Abstracts 4.
- [25] Pappalardo, R. T., and 18 colleagues 2007. Europa Explorer: A Mission to Explore Europa and Investigate Its Habitability. Bulletin of the American Astronomical Society 39, 465.
- [26] Moore, W. B. 2007. Boundary Layer Dynamics and Sub-Adiabaticity in Convecting Planetary Mantles. AGU Spring Meeting Abstracts A3.
- [27] Zahnle, K. J. and W. B. Moore 2006. Earth After the Moon-forming Impact. LPI Contributions 1335, 110-111.
- [28] Nimmo, F., P. C. Thomas, R. T. Pappalardo, and W. B. Moore 2006. Inferring the State of Tidally-heated Satellite Ice Shells from Global Shape Measurements. AGU Fall Meeting Abstracts 3.
- [29] Moore, W. B. 2006. Enceladus: Caught in the Act of Differentiation?. AGU Fall Meeting Abstracts 171.
- [30] Williams, J.-P., F. Nimmo, and W. B. Moore 2006. The Formation of Tharsis: What the Line-of-Sight Data is Telling Us. 37th Annual Lunar and Planetary Science Conference 37, 2364.
- [31] Moore, W. B. 2005. Constraints on Lunar Thermal-Rotational Evolution from the Fossil Shape of the Moon. AGU Fall Meeting Abstracts 929.
- [32] Nimmo, F., R. T. Pappalardo, and W. B. Moore 2005. Icy satellite shell thickening: consequences for non-synchronous rotation rates and stresses. AGU Fall Meeting Abstracts A5.

- [33] Varadi, F. and W. B. Moore 2005. Non-Hamiltonian perturbation theory for deformable fast rotators. *Bulletin of the American Astronomical Society* 37, 522.
- [34] Moore, W. B. 2004. A Parameterization for Temperature and Heat Flow in a Layer Heated from Within and Below. *AGU Fall Meeting Abstracts* A1012.
- [35] Musotto, S., W. Moore, F. Varadi, and G. Schubert 2004. Io's Tidal Dissipation and Longitudinal Drift. *AGU Fall Meeting Abstracts* A968.
- [36] Palguta, J., J. D. Anderson, G. Schubert, and W. B. Moore 2004. Mass Anomalies on Ganymede. *AGU Fall Meeting Abstracts* A967.
- [37] Williams, J., F. Nimmo, and W. Moore 2004. The Formation of the Thaumasia Highlands: Elastic Thickness Estimates From Line-of-Sight Accelerations. *AGU Fall Meeting Abstracts* A795.
- [38] Varadi, F. and W. B. Moore 2004. A new perturbation theory for fast rotators and a revised formula for spin axis precession. *AGU Fall Meeting Abstracts* A793.
- [39] Palguta, J. L., J. D. Anderson, G. Schubert, and W. B. Moore 2004. Mass Anomalies on Ganymede. *Bulletin of the American Astronomical Society* 36, 1085.
- [40] Musotto, S., W. Moore, F. Varadi, and G. Schubert 2004. Effects of Physical Librations and Non-Keplerian and Inclined Orbit on Tidal Dissipation in Io. *Bulletin of the American Astronomical Society* 36, 1083.
- [41] Williams, J.-P., W. B. Moore, and F. Nimmo 2004. The Formation of Tharsis in the Early Noachian: What the Line-of-Sight Gravity is Telling Us. *Second Conference on Early Mars: Geologic, Hydrologic, and Climatic Evolution and the Implications for Life* 8054.
- [42] Couetdic, J., F. Varadi, W. B. Moore, and N. Haghighipour 2004. Differential Continuation of Stable Resonant Periodic Orbits in Three-Body Systems. *Bulletin of the American Astronomical Society* 36, 854.
- [43] Moore, W. B. 2004. Thermal Equilibrium in Tidally Heated Bodies and Europa's Special Place. *AGU Spring Meeting Abstracts* A2.
- [44] Schubert, G., J. D. Anderson, R. A. Jacobson, E. L. Lau, W. B. Moore, and J. Palguta 2004. Mass Anomalies on Ganymede. *Lunar and Planetary Science Conference* 35, 1892.
- [45] Nimmo, F., B. Giese, P. Figueredo, and W. B. Moore 2004. Thermal and Topographic Tests of Europa Chaos Formation Models. *Lunar and Planetary Science Conference* 35, 1403.
- [46] Moore, W. B. 2004. Tidal Deformation and Tidal Dissipation in Europa. *Workshop on Europa's Icy Shell: Past, Present, and Future* 7055.
- [47] Williams, J. and W. B. Moore 2003. Incipient Formation of Tharsis: a Lithospheric Flexure Model Using Venusian Coronae as an Analog. *AGU Fall Meeting Abstracts* 1060.
- [48] Moore, W. B. and N. Makris 2003. Understanding Active Processes at the Surfaces of Jupiter's Icy Moons. *AGU Fall Meeting Abstracts* 1.

- [49] Schubert, G., J. D. Anderson, R. A. Jacobson, E. L. Lau, W. B. Moore, and J. Palguta 2003. Geodesy of Amalthea and the Galilean Satellites of Jupiter. AGU Fall Meeting Abstracts 1.
- [50] Varadi, F., S. Musotto, W. Moore, and G. Schubert 2003. New Problems and Theories of Synchronous Rotation. *Bulletin of the American Astronomical Society* 35, 1045.
- [51] Couetdic, J., N. Haghighipour, F. Varadi, and W. B. Moore 2003. Stable 1:2 Resonant Periodic Orbits in Elliptic Three-Body Systems. *Bulletin of the American Astronomical Society* 35, 1039.
- [52] Musotto, S., F. Varadi, W. Moore, and G. Schubert 2003. Coupled Orbital-Rotational-Tidal Dynamics of Io. *Bulletin of the American Astronomical Society* 35, 1038.
- [53] Musotto, S., W. Moore, F. Varadi, and G. Schubert 2003. Tidal Dynamics of the Galilean Satellites. *Bulletin of the American Astronomical Society* 35, 943.
- [54] Moore, W. B. and G. Schubert 2003. Tidal Deformation of Ice Shells on Ganymede and Callisto. *Bulletin of the American Astronomical Society* 35, 918.
- [55] Moore, W. 2003. Refrigeration of planetary mantles by melting. EGS - AGU - EUG Joint Assembly 7635.
- [56] Musotto, S., W. Moore, F. Varadi, and G. Schubert 2002. Forced and Free Libration of the Galilean Satellites. AGU Fall Meeting Abstracts 506.
- [57] Moore, W. B. 2002. Melting and Differentiation Effects on Convective Heat Transport. AGU Fall Meeting Abstracts 503.
- [58] Anderson, J. D., A. Anabtawi, R. A. Jacobson, T. V. Johnson, E. L. Lau, W. B. Moore, G. Schubert, A. H. Taylor, P. C. Thomas, and G. Weinwurm 2002. Gravity Field, Topography, and Interior Structure of Amalthea. AGU Fall Meeting Abstracts 13.
- [59] Musotto, S., F. Varadi, W. Moore, and G. Schubert 2002. Io's Free and Forced Libration. *Bulletin of the American Astronomical Society* 34, 905.
- [60] Musotto, S., F. Varadi, W. Moore, and G. Schubert 2002. Coupled orbital-rotational-viscoelastic models of the Galilean satellites. *Bulletin of the American Astronomical Society* 34, 938.
- [61] Moore, W. B. 2002. Heat Flux Scaling due to Mantle Melting and Melt Migration. AGU Spring Meeting Abstracts A4.
- [62] Anderson, J. D., G. Schubert, A. Anabtawi, R. A. Jacobson, E. L. Lau, and W. B. Moore 2002. Recent Results on Io's Gravity Field and Interior Structure. AGU Spring Meeting Abstracts 1.
- [63] Musotto, S., F. Varadi, W. Moore, and G. Schubert 2001. Tidal Dissipation and Stability of the Laplace Resonance in the Galilean Satellites. AGU Fall Meeting Abstracts 496.
- [64] Moore, W. B. 2001. Heat Transport by Melt Segregation in Io. AGU Fall Meeting Abstracts A491.
- [65] Moore, W. B. 2001. Coupling Tidal Dissipation and Convection. *Bulletin of the American Astronomical Society* 33, 1106.

- [66] Anderson, J. D., R. A. Jacobson, E. L. Lau, W. B. Moore, O. Olsen, G. Schubert, P. C. Thomas, and Galileo Gravity Science Team 2001. Shape, Mean Radius, Gravity Field and Interior Structure of Ganymede. *Bulletin of the American Astronomical Society* 33, 1101.
- [67] Musotto, S., F. Varadi, W. Moore, G. Schubert, and C. Barbieri 2001. Tidal Dissipation in the Galilean Satellites. *Bulletin of the American Astronomical Society* 33, 1063.
